Link to the share drive that contains the Arlington facility permit and TSD from Maricopa Air Quality Department: G:\AIR-3\Oversight\Arizona\Maricopa\Hickman Farms\Arlington

I've also attached a couple of emails that provide some background on the permitting exemptions. I've also attached the original complaint, which I'm sure you already have someplace- I've found the original complaint to be informative, although there are certain facts in there that I would want to verify independently.
